

Hyperbolic Take-off . . . Adjustable Pressure Pads

**DESIGNED
TO
NAB
STANDARDS
FITS
ALL
MACHINES**

**TAPE
CARTRIDGE**
by
Amerline

YOU DON'T HAVE TO FIGHT TO SWITCH!

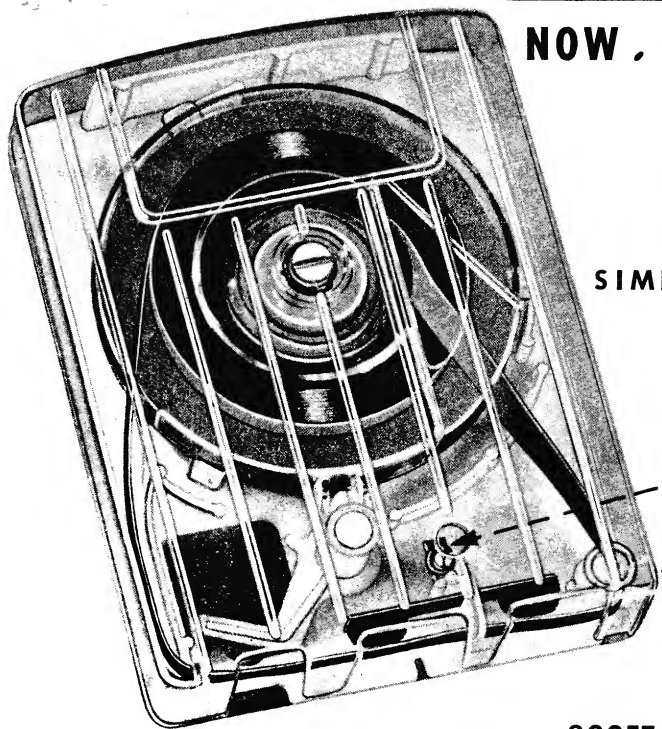

- ★ **FAST BREAKING — EXCELLENT FIDELITY** — adjustable pressure pads give positive "on the air" reproduction at quick starts.
- ★ Precision manufactured and 100% tested for flutter and wow with a 3 KC test tone.
- ★ Cartridge base is made of DELRIN which is unaffected by heat to assure dimensional stability under all operating conditions.
- ★ Center post bearing which holds the disk is made of DELRIN for smooth operation. Eliminates wear.
- ★ Tape (not disk) is securely locked when not in use. Tape will not loosen or unravel in handling or shipping.

MANUFACTURED AND GUARANTEED BY THE LARGEST MANUFACTURER OF MAGNETIC TAPE REELS AND CONTAINERS FOR THE TAPE RECORDING AND DATA PROCESSING INDUSTRIES.

**WHY
 DELTRIN ?**

Dupont's miracle material after 12 years of research and development has been accepted by industry nationally replacing iron, steel, brass or zinc in thousands of new applications. Dupont has recommended DELTRIN because of its high heat characteristics, its high resistance to erosion and abrasion, its wear resistance, and dimensional stability.
